

Tech Bracket

Salamander Collaboration Furniture and Carts offerings are plug-and-play with the most popular virtual meeting types and technologies including Cisco, Crestron, Logitech and beyond. With Salamander, video meetings are made easy with turnkey solutions. Providing accessible, comfortable, and ergonomically correct display, screen and camera positioning that immediately enhances the user experience and improves productivity and mobility.

Bring flexibility and finishing touches to every meeting system with Salamander's Tech Brackets. Tech Brackets allow for an integrated camera to be placed above or below the display screen and are fully height adjustable for proper positioning. Tech Brackets adhere to the furniture system and can easily extend out from the display to conference camera and center speakers.
