## TOOLS INCLUDED

#### PART # DESCRIPTION

P-400-030	Driver Bit 1/4" Hex Key
400-035	Leveler Wrench
400-030	1/4" Hex Key
400-070	1/8" Hex Key
400-080	5/32" Hex Key
	5/32" Hex Key
400-058	3/16" Hex Key- Short Arm
301-240	1"x 2" Double Sided Tape

## TOOLS NEEDED

#2 Phillips Head Screw Driver 1/2 Drill Bit for Standard Installation Pencil Tape Measure Level

## WARNINGS

### **IMPORTANT SAFETY INSTRUCTIONS**

### **READ ALL INSTRUCTIONS BEFORE USING THIS FURNISHING**

WARNING! Failure to comply with these instructions may result in accident involving serious personal injury. Failing to follow these instructions can result in the product being damaged or being destroyed or voiding of the warranty.

**WARNING!** For use with video monitors weighing **175lbs (80kg)** or less. Use with heavier televisions may result in instability causing tip over resulting in death or serious injury.

#### 

- Close supervision is necessary when this furnishing is used by or near children, invalids, or disabled persons
- Use this furnishing only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.
- Do not use outdoors
- For Commercial Use Only

Weight Capacities: Max Load: D2/367BM2 - 175 lbs (80kg)

#### \*\*\*\*\* SAVE THESE INSTRUCTIONS \*\*\*\*\*

#### Accessories and Spare Parts

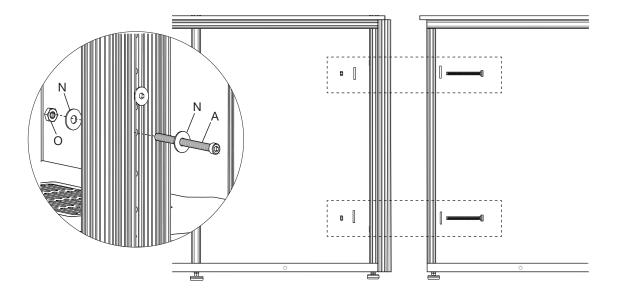

Please contact Salamander Designs 860.761.9500 or www.salamanderdesigns.com/commercial

## 1. UNIFY CABINETS

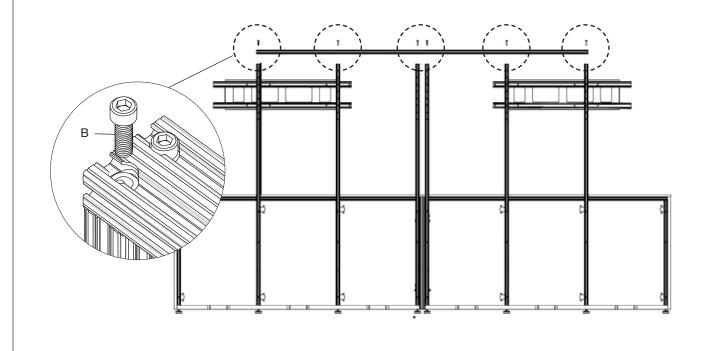

Align the top and bottom thru holes located on the front and back vertical cabinet extrusions.

Bolt together as shown with screw (A), washers (N) and lock nut (O).

## 2. INSTALL HORIZONTAL MOUNTING POST

Align the holes of the horizontal mounting post with the holes of the vertical mounting posts. Secure with screws (B). *A straight bit has been provided to use with drill driver to speed installation.* 

## 3. INSTALL DISPLAY BRACKETS

#### Determine if Extension Wings are Required to Mount Your Display

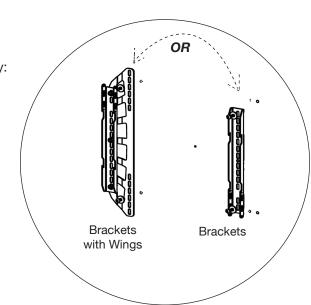

Measure the mounting pattern on your display:

200 x 200 to 600 x 400 Use Only Display Brackets

600 x 400 to 800 x 500 Use Display Brackets with Extension Wings

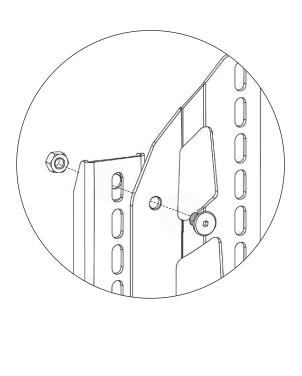

Α

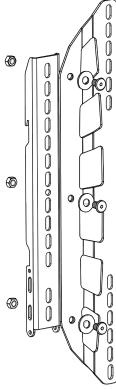

B

### Assemble Extension Wings if Required

Extension wings are fastened to display brackets using the 3 flat head screws, washers and lock nuts provided in the PL100 Mount Kit prior to mounting your display.

## 3. INSTALL DISPLAY BRACKETS

#### Attach Brackets to Display

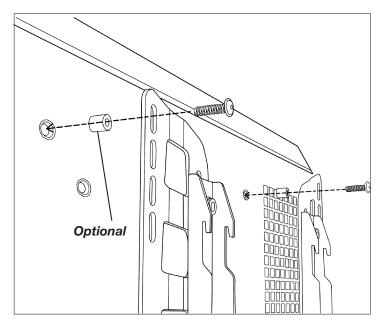

Fasten the brackets using fasteners (length and size recommended by the display manufacturer). *Using improper screw length can damage the display.* 

#### NOTE:

An assortment of screws and optional spacers have been provided in the PL100 Kit.

Optional Spacers are provided for additional clearance between the mount and the Display if necessary.

M8 16mm screws are supplied for use with Microsoft Surface Hub.

## 4. ADJUSTING MOUNT

#### **Determine Vertical Position of Mount**

Measure from the bottom of display to center of display mount bracket.

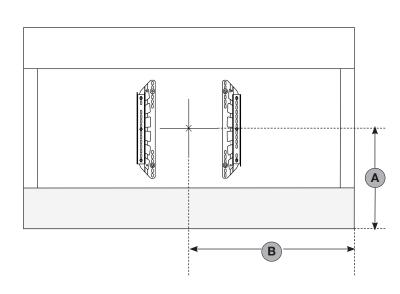

#### Determine Horizontal Position of Mount

Measure the length of the display and divide by 2 to get the horizontal mount center.

#### NOTE:

B

If a space between the two displays is required, add half of the width of the space to this dimension.

**Determine Current Vertical Position of Mount -** This will provide bottom of screen to floor dimension for the current position of the mount.

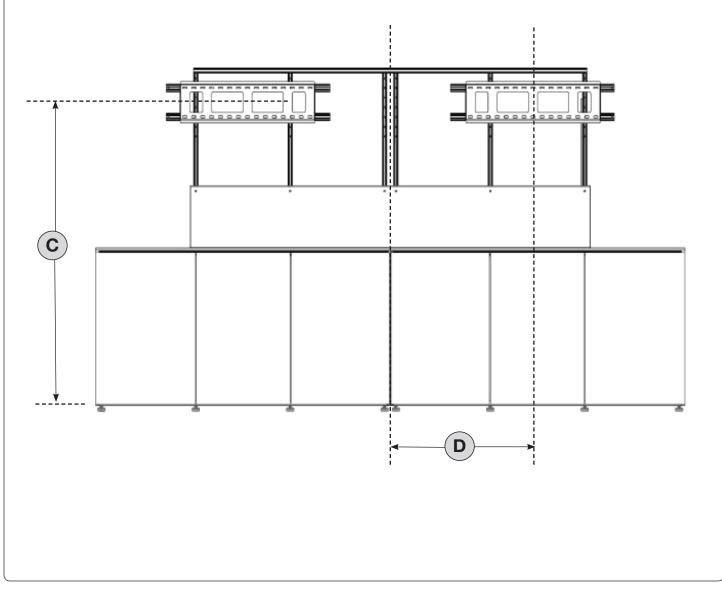

Measure from the floor or top of cabinet to the current center of the Mount Plate installed and subtract the vertical dimension determined in step 4A. The difference is the amount of adjustment required.

### **Determine Current Horizontal Position of Mount**

Measure from the center line of the cabinet to the center of the Mount Plate and subtract the horizontal dimension determined in step 4B. The difference is the amount of adjustment required.

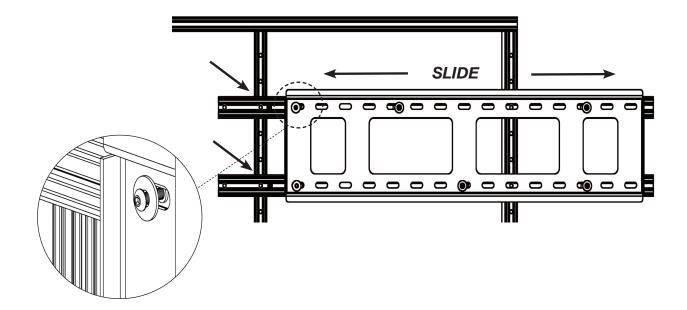

Follow steps 4E thru 4I if vertical and/or horizontal adjustments are needed.

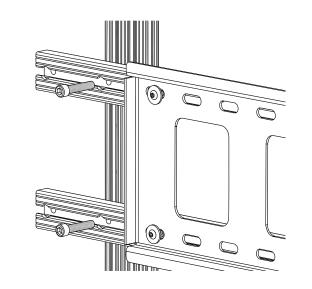

### **Vertical Mount Adjustment**

Vertical adjustment is incrementally made by using the holes spaced 2" on the vertical mounting extrusions. If both vertical and horizontal adjustments are need please read both 4E thru 4I prior to making adjustments. Fastening points are shared.

Loosen Mount Plate and slide left or right to gain access to the fasteners of the horizontal mounting extrusions.

Loosen bolts fastening the horizontal mounting extrusions to vertical mounting extrusions. The flat nuts at the back of the vertical mounting extrusions will drop and need to be repositioned.

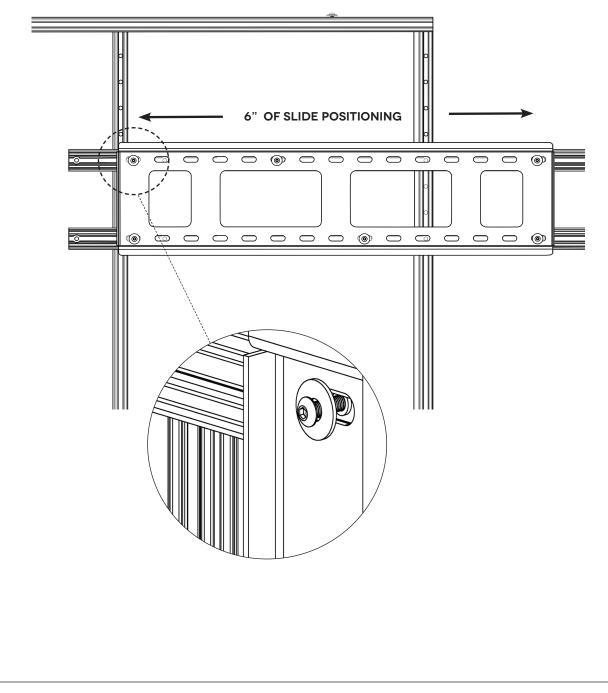

If vertical adjustment are necessary reposition the horizontal mounting extrusions with the fasteners in place and refasten to the vertical mounting extrusions. Level the wall bracket while retightening move to step 4F if horizontal adjustments are needed.

## Horizontal Mount Adjustment

Relocate fasteners along the horizontal extrusions for large 3" incremental adjustment or loosen the wall plate providing 6" of left to right positioning adjustment on the vertical extrusions.

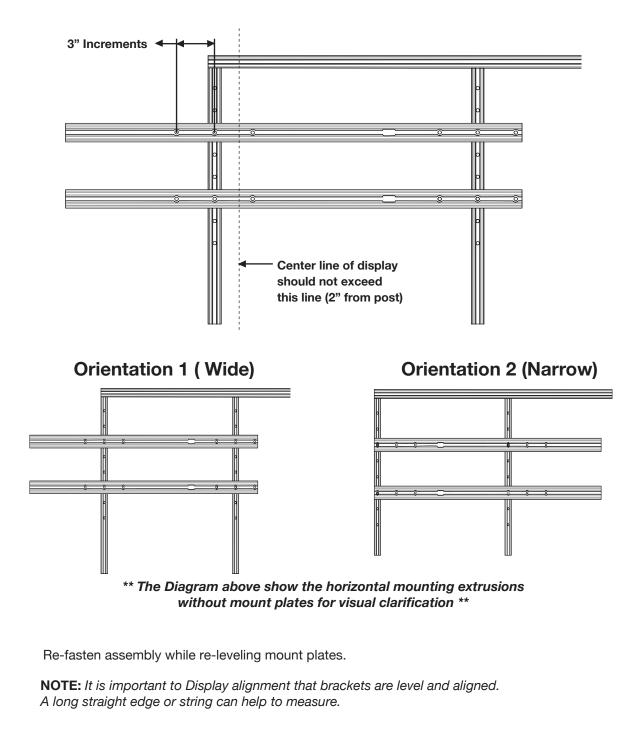

Loosen the wall plate and slide left or right for minor adjustments.

## Horizontal Mount Adjustment

Relocate the bolt positions on the vertical mounting extrusions to provide larger 3" incremental adjustments. The orientation of the horizontal mounting extrusions provide 3 wide positions and 3 narrow positions by reversing the orientations of the extrusions.

NOTE: The center line of the Display should never be positioned further than the indication shown

# 5. CAMERA SHELF (OPTIONAL)

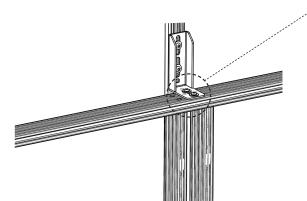

#### **Install Mount**

Loosely assemble Screws (E), Washers (N) and Drop-In Nuts (P) though Bracket (R).

Affix Bracket to top of the horizontal mounting post by sliding Drop-In Nuts (P) into slots.

Adjust bracket to desired location an tighten with provided Hex Key.

Verify that Drop-In Nuts catch extrusion.

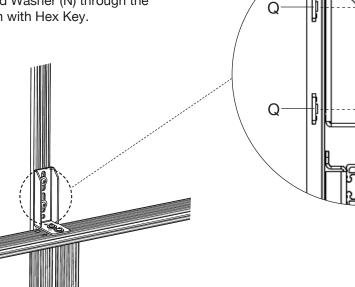

### Install Mount

B

Insert 2 Flat Nuts (Q) into Camera Mounting post.

Insert Screw (C) and Washer (N) through the Bracket and tighten with Hex Key.

Е

ė ė

Ν

Ν

С

С

N

Ρ

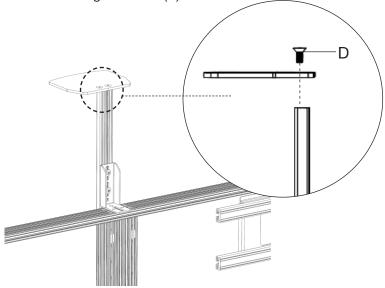

R

# 5. CAMERA SHELF (OPTIONAL)

### **Install Shelf**

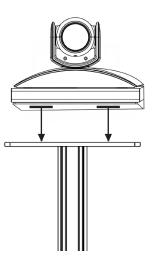

Install Camera Shelf to Mounting Post using 2 Screws (D).

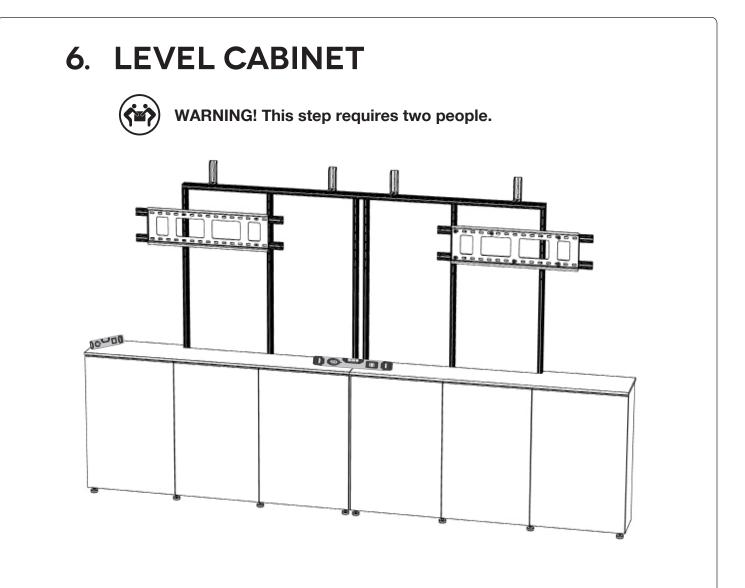

#### **Place Camera**

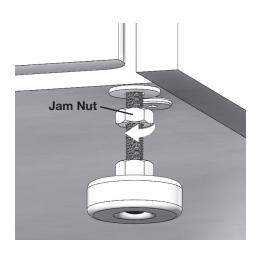

Use double side tape to secure camera from sliding off shelf.

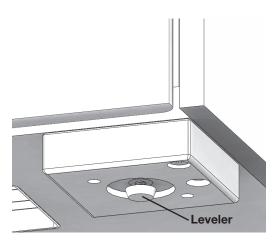

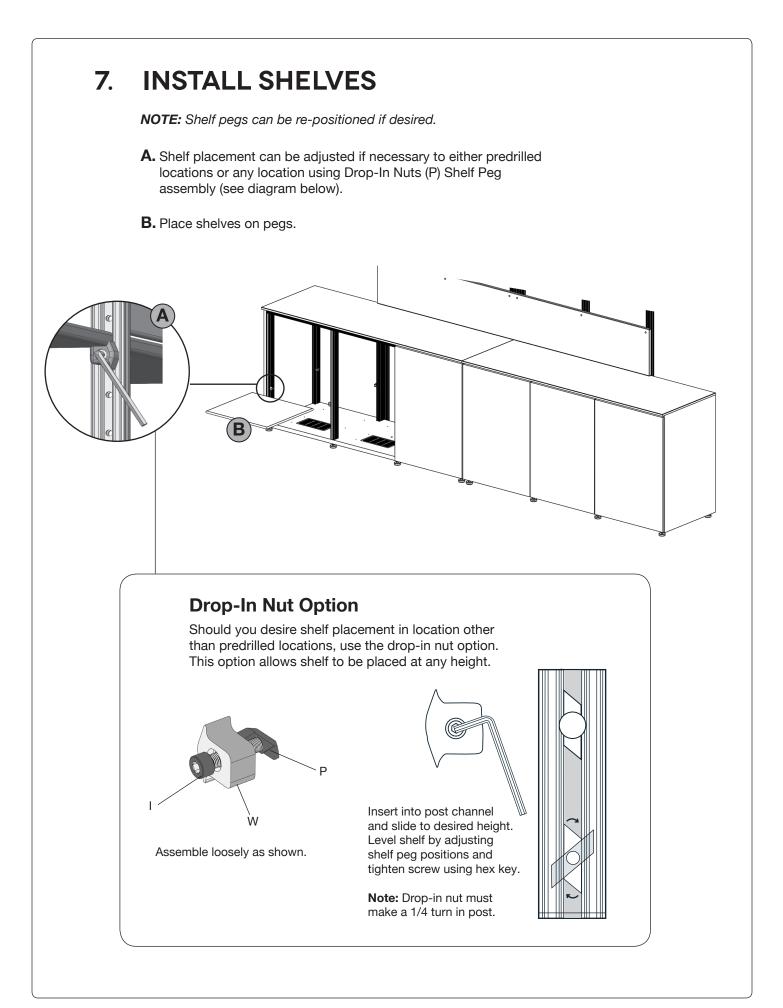

#### Leveler Foot Loosen jam nut with supplied wrench and tighten to the locked position.

#### **Wood Block Foot** Lift cabinet and adjust leveler by hand.

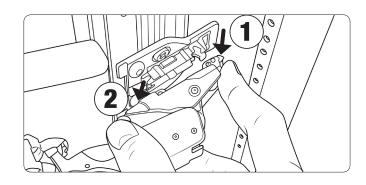

## 8. RACK CARTRIDGE

For re-installation of Rack Cartridge reverse steps.

### **Remove Door**

Release tab (1) ,then pull forward off hinge base (2).

**NOTE:** For re-installation be sure to lock Release Tab (1) into place before setting hinge base (2) back into place.

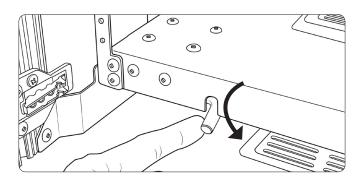

Α

## **Unlock Rack**

Push latch toward center and latch into notch.

**NOTE:** In re-installation be sure to hear a click sound to know that the cartridge rack is locked back into place

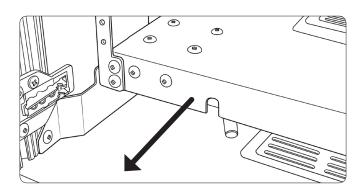

**D**)

### ) Remove Rack
