

TIME FOR A TECHNOLOGY REFRESH? IT'S TIME FOR SALAMANDER.

Thinking of adding a new look, display, video conferencing or collaboration technology to your workplace?

A refresh is a perfect time to leverage our furniture for every existing or new space. With rapid deployment, we help make the most of technology – and your team.

Easily equip an entryway up to a complete conference center, and everything in between. Scalable, mobile systems let you use just what you need – when you need it.

**For Every Technology Refresh –
Think Salamander.**

**Install conference technology and furniture
in days rather than weeks.**

ENGINEERED FOR TODAY'S TECHNOLOGY

When it's that time, Salamander Designs is the "go to" brand for architects, designers and AV/IT integrators the world over. Our expert design team and build-to-order AV technology furniture formula have served global companies including Sony, Dell and General Electric – for 25 years.

Salamander not only refreshes your workspace – we transform it. You'll immediately improve productivity and collaboration. Our premium furniture is engineered to make today's offices mobile, global and better than ever before.

Low Impact Installation

- Save time & money with reduced construction and service providers
- Eliminate wall reinforcement and construction
- Eliminate back boxes with on board Power Ports
- Full wire management capability

Easy Quick Connect

- Support all technology and maximize user engagement
- Immediately connect laptops & devices
- Includes retractable cables
- Simplify with integrated cabinet cameras

ADA Compliant

- Incorporate every compliance & certification
- Solve "Protrusion/Operable Part reach limits"

Mobile & Flexible

- Maximize space with slim, ergonomic cabinets
- Deploy on-the-go solutions with Mobile Display Stands

Retro-Fit Friendly & Upgradeable

- Refresh and re-skin in lieu of replacement
- Add accessories and features as you grow, for lifetime value

Décor Matching

- Match existing furniture & décor with custom finishing & footing
- Choose from a variety of designer styles, materials and sizes

Turnkey Technology Furniture Solutions that are:

- Built in a 100% solar powered USA facility
- Covered by a Lifetime Warranty
- Backed by world-class, superior support

BETTER MEETINGS WITH UNIFIED COMMUNICATION SYSTEMS

Today's workforce is on-the-go at all times. The need to connect and collaborate at a moment's notice is critical. Deploying the right unified communication systems makes every room and everyone in your organization more accessible and productive.

Mobile Stands

Interactive display stands crafted to be flexible and extremely durable. These advanced solutions will provide accessible, comfortable and ergonomically correct touchscreen positioning that enhances the user experience and improves productivity.

SMALL MEETING ROOM: UNIFI™ HUDDLE

Now you can deploy the same high-tech, stunning solution to every conference and meeting – whether between managers, mid-size team huddles or full-blown meetings with hundreds attending in different countries.

Unifi™ Huddle

Unifi Huddle™ Tables provide the latest in high-quality, customizable solutions so teams can gather quickly and collaborate more easily. Unifi Huddles consist of two models that provide the latest in table solutions to accommodate today's modern offices.

LARGE MEETING ROOM: CREDENZAS & UNIFI TABLE

TURNKEY BUNDLES BRING BIG BENEFITS

Pull-out cartridge equipped with and presentation system.

Salamander matches today's technology with designer Mobile Stands, Credenzas and Huddle Tables that allow you to derive maximum benefit fit from each technology. We've integrated cameras and communication devices into our furniture, delivering turnkey bundles that are fast to deploy.

Credenzas & Low Profile Cabinets

Customize your own by selecting from our wide variety of styles, materials, sizes and finishes of furniture to support technology, unified communication and maximum user engagement with designer styles.

SOLUTIONS TO SUIT EVERY ROOM AND MEETING

Solutions for every room and workspace. Our design team matches your high-tech electronics with personalized carts, stands and furniture that allow users to derive maximum benefit of each technology. Roll our mobile carts from room to room—and roll them right into the future with simple upgrades as your technology evolves.

TELEPRESENCE

Large capacity Credenzas integrate AV/IT systems.

INTERACTIVE

Low Profile Cabinets for interactive displays.

MOBILE

Mobile Stands to connect and collaborate anywhere.

TRAINING

Electric Wall Stands raise displays to presentation mode.
