

Unified Communication Systems that Connect People and Ideas.

Great things happen when great companies come together.

Today's workforce is on-the-go and may be in-person, socially spaced or meeting virtually. The need to connect and collaborate easily at a moment's notice is vital.

With Barco, Jabra, LG and Salamander turnkey solutions, now you can deploy the latest technology and seamless setup to every conference, meeting and space quickly – whether between managers, mid-sized team huddles or full-blown meetings with thousands around the globe.

barco.com

Barco is a global leader in professional visualization for enterprise, healthcare and entertainment. The new Barco ClickShare for wireless conferencing, is a powerfully intuitive technology that lets people collaborate more effectively and effortlessly, wherever they happen to be.

Barco ClickShare Conference

jabra.com

Traditional video conferencing cameras often do not provide the full video picture. With Jabra PanaCast, the world's first intelligent 180 degree panoramic-4K video solution, you'll be confident your teams can connect and collaborate instantly, with whatever equipment they're using. The Jabra Speak Series speakerphones deliver crystal-clear communication in any meeting setting of any size, whether in-person or virtual.

Jabra PanaCast & Speak

LG is the leading provider of innovative, flexible and feature-packed Commercial products including large-format Display Products that are ideal for enterprise communications and conferencing, digital signage, huddle spaces, training facilities and more.
