

# Rack Cartridge Active Cooling CR/AC Assembly Instructions

## **Install Fan**

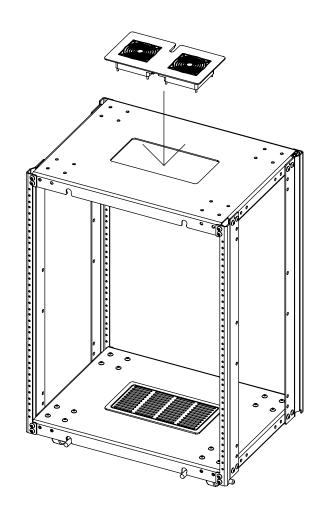

Drop the fan into the mounting hole guiding the assembly squarely into the recessed area, as shown.

Adhesive is not necessary for this installation. If desired, a light bead of silicone sealer can be used.

## 2. Wiring

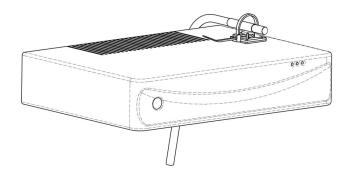

Run wiring from fan into the Rack Cartridge body.

Tip: Install Power Conditioner Units to the most top position so that it is close to the fan kit.

#### 3. **Attach Termister**

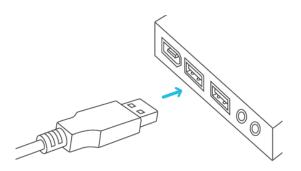

Use supplied wire tie to hold Thermister in place of the hottest piece of equipment, closest to the heat source. Consider your "always on" components.

Rack Cartridge Active Cooling 500-457 v11.21 page 1 of 3

## 4. Powering Fan Kit

Active cooling fan kit is powered by plugging the supplied AC adapter into the wall outlet as shown below or a PDU. Same AC adapter is sufficient to power the Fan Kit and the Thermister, utilizing the in-line female USB plug.

## 5. Using Fan Kit

## **Using Active Thermal Trigger:**

Multi Selector Fan Switch must be set to High when Active Thermal Trigger is used.

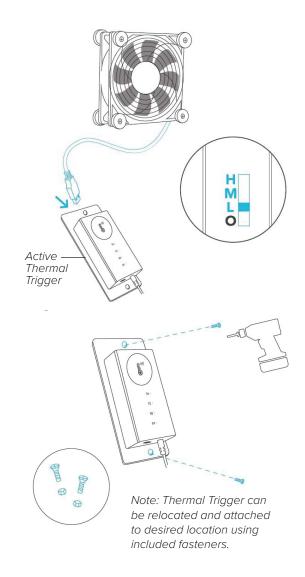

### **Using Fan Switch:**

When not using active thermal trigger, switch selects constant "always on" fan speed.

Push button to cycle through 4 temperature settings. When all 4 temperature lights are on, "always on" mode is selected.

#### **Power Off**

Pressing round button again will turn fans and Active Thermal Trigger off.

## 5. Adding an additional cooling plenum to Rack Cartridge Cooling System

NOTE: Cabinet top removed for clarity

A. Insert (6) 300-518 from the bottom (flat) side of the plenum. Install (6) 300-565 to the top of the screw protruding through the plenum. Only engage the drop-in nut by 1-2 threads.

B. Insert plenum into desired bay. Ensure when installing, the mounting tabs sit flush to the bottom surface of the extrusion. Tighten hardware.

#### LIMITED WARRANTY FOR COMMERCIAL VIDEO DISPLAY STANDS AND MOUNTS

Salamander is proud to stand behind our products with industry-leading warranties. Should you ever encounter any problem with your Salamander product, let us know. We are here to make it right. 1.800.535.5659 - 860.761.9500
