

WORKING BEAUTIFULLY FOR YOU

Salamander Designs is proud to have helped thousands of companies worldwide rapidly deploy state-of-the-art workplace collaboration technology and beautiful AV furniture through AV integrators, IT specialists and designers. Salamander is the leader in premium AV furniture that's engineered to make all of today's technology and people work better.

Cisco is known the world over for modern unified collaboration technology that brings people together.

When Cisco and Salamander products are brought together, your meeting spaces can be your best yet. Your business will enjoy superior technology and design that will unify collaboration and bring you closer to your most important resources—each other.

Cisco Webex provides on-demand collaboration, online meeting, web conferencing and video conferencing applications

SOLUTIONS TO SUIT EVERY ROOM AND MEETING

With Salamander and Cisco, you can support a full range of room layouts, sizes and needs with turnkey technology and furniture. Go small, medium, large – even go mobile. These premium, yet simple systems can equip a small foyer up to executive boardrooms and multi-level conference centers—and everything in between. Scalable solutions allow you to be nimble and use just what you need when you need it.

Rapidly Deliver Complete Communications With Cisco Webex Boards Or Your Own Displays.

Today's workforce is on-the-go. The need to connect and collaborate at a moment's notice is critical. Deploying the right communication systems makes every room and everyone in your organization most accessible and productive. Now you can deploy the same high-tech, premium solution to every conference and meeting – whether between managers, mid-size team huddles or full-blown meetings with hundreds attending in different countries.

Huddle Room Solutions

Cisco Room Kit Mini with Salamander Unifi Huddle

Salamander is fully Cisco compatible, and we can complement any deployment. From Cisco's elegant, modern Webex solutions, boards and Quad Cameras, to its one-touch-to-join conferencing, we can help you rapidly deliver a complete communications and furniture solution for instant meetings and conferencing. Thanks to Salamander, cameras are set to exactly the right level at all times, all wires are hidden, and everything in the room blends cohesively and works flawlessly with a touch.

Conference Room Solutions

Cisco Room Kit Plus with Quad Camera
Salamander Credenza

Salamander matches Cisco display solutions with designer Mobile Stands, Electric Carts, Credenzas and Huddle Tables that allow you to derive maximum benefit from every technology. We integrate Cisco cameras (of all flavors) and communication devices into our furniture, for turnkey bundles that are faster to deploy and easier to install. All wires, power, USB ports and more, are neatly hidden in stunning Cabinets and Tables – and are never in the way of your people and progress.
