

# Today's workplace. Today's most adaptable furniture solutions.

Salamander Designs delivers innovative, complete AV Furniture design, manufacturing and superior customer service that will save you time and money when outfitting conference rooms, flex rooms, offices, huddle rooms, meeting rooms, training and education rooms and boutique spaces.

Helping you design beautiful, functional furniture systems that adapt to your technology is just part of what we do. We provide comprehensive solutions that help you connect people and maximize your technology for video and virtual conferencing, unified communications and Microsoft Teams – whether you're working from home or across the globe.

Companies that have  
set Global Standards  
on Salamander.

# Conference Rooms.

Large Rooms:  
11-20 People

Today's teams are video conferencing with Microsoft Teams on an hourly basis. Small to medium conference rooms include displays, speakers, mics and more. Salamander furniture brings it all together, allowing you to collaborate easily and instantly.

This furniture optimizes every display and camera position, sound systems and houses all components, to maximize technology and engagement. Tables come in many sizes, and the low-profile cabinet is ideal for rooms where space is at a premium.

# Conference Rooms.

Medium Rooms:  
6-10 People

## Mobile Stands and Carts add Infinite Flexibility

- Bring convenience and mobility to conference systems
- Leverage multiple camera configurations
- Easily roll from space to space as needed

## Furniture that Optimizes Every Technology

- Position cameras in exactly the right location for peak engagement
- Add ideal number and size of displays and position perfectly
- Flexibility to support mics, speakers and every technology

# Huddle/ Focus Rooms.

1-5 People

The need for speed and to huddle up to communicate in smaller spaces has taken over. Unifi Huddle™ Stations enhance quick video conference in any smaller or open room with a turnkey table, cabinet for monitor and camera setup and seating or standing configuration.

Today's workforce is on the go and the need to collaborate easily at a moment's notice is vital. Impromptu discussions often occur at someone's desk, where teams gather around a single computer. With the most modern collaboration station around, now a large display can be affixed to a sleek, mobile cabinet for productive gatherings anywhere. Add an enclosed short-throw projector for a modern mobile cart that projects images on any wall – for any training or team.

# Flex Spaces.

## Sizes and Configurations for Any Space

- Select from a wide variety of furniture sizes and configurations
- Make every area most productive – including flex and open spaces
- Choose turnkey systems that include table, cabinet, power ports and more

## Today's Ultimate Mobile Collaboration Station

- Elevate impromptu gatherings with mobile screen, cabinet and workstation
- Move from people gathering at a desk to a standup collaboration station
- Add short throw projectors to display on any wall, anywhere, anytime

# Why Salamander Designs.

At Salamander Designs, we devote our hearts and talents to sculpting every piece of beautiful furniture with hand-crafted detail right in Connecticut. Each system is personalized to integrate with modern business needs, lifestyles and technology. While inspired and shaped by the unique needs of the individual customer, we always build with sustainability at the forefront of our minds.

# Mobile Solutions.

A stylish, sleek and compact design moves easily between spaces. A thoughtful range of accessories provides even more utility and an improved user experience.

Salamander’s beautiful and highly functional FPS Series Stands offer superior ergonomics complimenting any touch screen display with improved productivity, unrivaled flexibility and lifetime value.
